
Subject: COVID-19 Reminders

OVERVIEW
Vidant Health continues to monitor and prepare for COVID-19. This is a rapidly evolving situation and we will continue to provide updates and communicate as needed.

Resources
All team members are encouraged to visit MyVidant.org or VidantHealth.com/COVID-19 for updates, which will include frequently asked questions. Click here to view current and previous alerts.

The items below are reminders:

Operations
New Mask Requirements
The new mask requirements went into effect March 28 at 7 a.m.:
For the safety of all team members, patients and visitors, surgical masks are required for all team members and visitors in clinical areas, for team members in all food preparation and food service areas and strongly encouraged in all other areas.

The masks are provided at the team member and visitor screening stations. An FAQ is available for additional details and information.

This video features Vidant Health COO Brian Floyd demonstrating the proper procedure for putting on and removing a mask, as well as the “why” behind this important precaution.

Please send additional questions regarding masks and personal protective equipment (PPE) to ppequestions@vidanthealth.com. We will provide answers to your questions through the Vidant Alerts and MyVidant.org as soon as the information becomes available.

Cleaning Work Stations
To increase the safety of team members, patients and loved ones, team members are responsible for disinfecting their work spaces at the beginning and middle of their shifts. Learn more about which surfaces to clean and how by reviewing the Code Clean Tip Sheet.

If you need additional supplies, please order through your department/unit’s normal process with Central Supply or connect with your leader.

VMG Clinics Visitor Restrictions
Effective Monday, March 30, visitors will be prohibited from entering VMG clinics. One exception will be made: for pediatric patients, one parent or caregiver (with completed on-site screening) will be allowed to accompany the patient.
Vidant Cancer Clinics Visitor Restrictions
Effective Monday, March 30, visitors will be prohibited in all Vidant cancer clinics and infusion centers. One visitor may be allowed; this will be evaluated on a case-by-case basis, based on patient need. If a visitor is allowed, they must pass a screening before entering the clinic.

Health Care Worker Exposure Procedure
Read the COVID-19 Health Care Worker Exposure Procedures for information on what to do if you or another health care worker is asymptomatic, symptomatic or tests positive for COVID-19.

VMC Relaxed Parking Reminders
Relaxed Parking is in effect until further notice. In addition to the parking areas listed below, ECU is allowing overflow relaxed parking in lots SM-5 and SM-6, only. These lots, near the corner of Moye and Fifth Street, are identified on this map. All other ECU lots are off limits unless you have a parking permit issued by ECU Parking and Transportation. Among others, the Brody Outpatient and ECHI@ECU lots are NOT included. Parking in unapproved lots will result in ticketing and/or towing by ECU Parking and Transportation.
Team members may find appropriate parking in the following areas (see the map here for details):

- Parking is always available in Lots B-3 and B-4
- Early-bird parking is always available in Lot B-2 for those arriving between midnight and 5 a.m.
- Relaxed parking is available in Doctors’ Park
- Relaxed Parking is available in Lot B-5
- Relaxed parking is available in Lots A-2 and A-3 located near Venture Tower and Financial Services on the East side of campus
- Relaxed parking is available in Lot E-5, directly in front of the Pediatric and Orthopedic facilities
- Rehabilitation buildings, facing Stantonsburg Road
- East and west team members can cross zones during Relaxed Parking

Please do not park in any space that is designated for a specific use (Ex. Handicapped Parking, Patient Parking), unless you are qualified to use it. Parking areas not specifically included in this announcement are not part of Relaxed Parking. Note: the F-1 lot behind the Cancer Center and Occupational Health are not included in Relaxed Parking.
