COVID-19 Update
April 16, 6 a.m.

OVERVIEW
Vidant Health continues to monitor and prepare for COVID-19. This is a rapidly evolving situation and we will continue to provide updates and communicate as needed.

Resources
All team members are encouraged to visit MyVidant.org or VidantHealth.com/COVID-19 for updates, which will include frequently asked questions. Click here to view current and previous alerts.

Operations
VMC additional Relaxed Parking option
Effective today, April 16, the E2 Visitor Lot (across from the Cancer Center) will be open as part of Relaxed Parking for team members. The E3 Main Visitor Lot is being used by patients and not included in Relaxed Parking. Please do not park in any designated space (such as Handicapped Parking) unless you are qualified to use it. Please see the parking map for lot locations.

Human Resources
Reminder: Team Member Emergency Preparedness page in PeopleSoft
Vidant Health is continuing to prepare for the spread of COVID-19 throughout eastern North Carolina. As always, our priority is the safety of team members and the patients who rely on us to provide care.

Take Action: If you work at another health care facility/organization, please read carefully and complete the steps outlined below in PeopleSoft:

In an effort to continue to keep you and patients safe, please complete the Other (Non-VH) Employer section in PeopleSoft Employee Self Service for Occupational Health if you are a team member or VMG provider that works at a non-Vidant facility, including health system, hospital, assisted living facility or physician office beyond your role primary role at Vidant. The section is under the Team Member Emergency Preparedness Page in the Talent Profile Tile.

If the above applies to you, it is important for you to complete this section in order to ensure the safety of team members and patients as we learn of new COVID-19 outbreaks. This will also help to stop the spread of COVID-19 in eastern North Carolina as the organization works to anticipate and respond rapidly to the potential needs that may arise in a health care facility located within the communities we serve across the region.

For more information, review the Team Talent Profile: Emergency Preparedness quick reference guide available through AskPhin or by searching “COVID.”
